Optional available for tilting to the left side in driving direction.

12T and above - Terminal West / Pin-Type mounting available upon request.

Specification:

With the KAUP Ladle Tipper T360 underrun

ladles can be taken up, be transported and be tipped to a side partially or completely. The construction of this attachment permits exact, selective emptying of the pouring good.

Qualities:

- Tilting corner α 100° to the right - to the left optionally
- Independent sideshift serially
- Terminal west / Pin-Type suspension on inquiry
- Fork pockets optionally
